

Young Sparks Quiz & Answers 1

QUESTION 1

A boy was at a carnival and went to a booth where a man said to him, "If I can write your exact weight on this piece of paper, you have to give me \$50, but if I cannot, I will give you \$50."

The boy looked around and saw no scale, so he agreed; thinking no matter what the man writes he'll just say he weighs more or less. In the end, the boy ended up paying the man \$50.

How did the man win the bet?

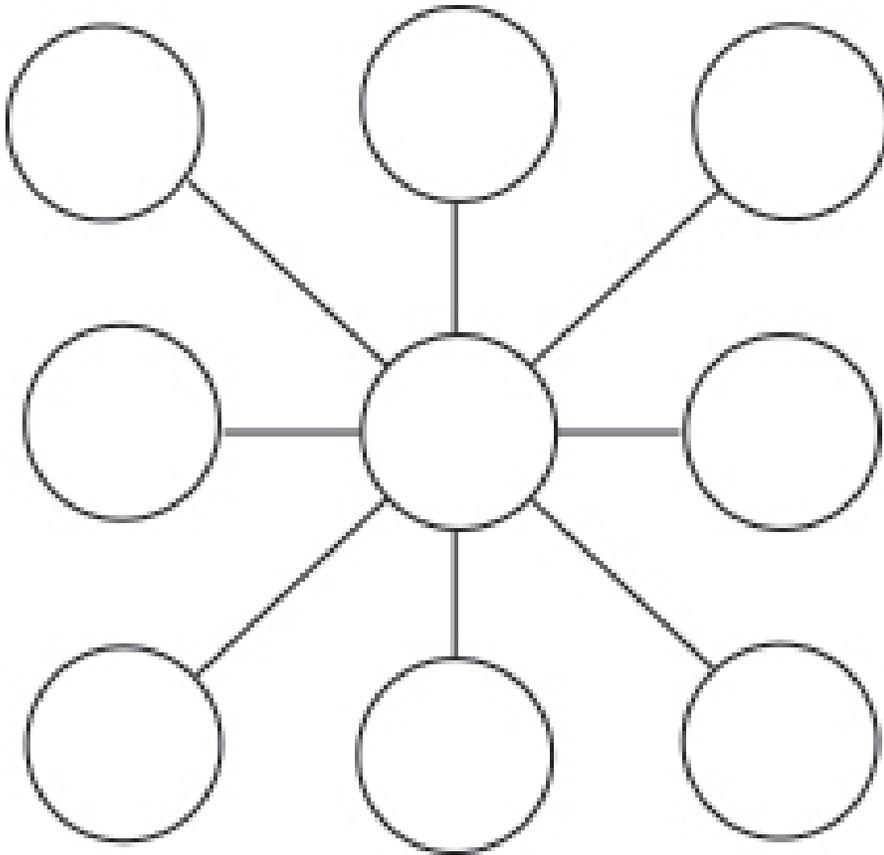

QUESTION 2

A man rode out of town on Sunday; he stayed a whole night at a hotel and rode back to town the next day on Sunday.

How is this possible?

QUESTION 3

Arrange the numbers from 1-9 into each circle so that each line has a sum of 15.

QUESTION 4

A man knocked on the door of an apartment, a woman opened the door. The man then said, "Sorry I thought this was my apartment." After the man left the woman called the police.

Why did she do that?

QUESTION 5

There are two fathers and two sons. They walk into a candy store and each buys a candy bar for 50 cents. The total for all the candy bars was \$1.50.

How is this possible?

QUESTION 6

On the first day of school, a boy was found murdered. The police questioned the adults who were around at the time. There was a teacher, a gardener, the principle and a coach. They all had alibis.

The gardener: I was cutting the bushes.

The teacher: I was supervising the mid-term exams.

Coach: I was playing basketball.

Principal: I was in my office.

Although they all had alibis the cop arrested the murderer immediately.

Who murdered the boy?

QUESTION 7:

I am never at home on Sundays.

Whats wrong with the sentence

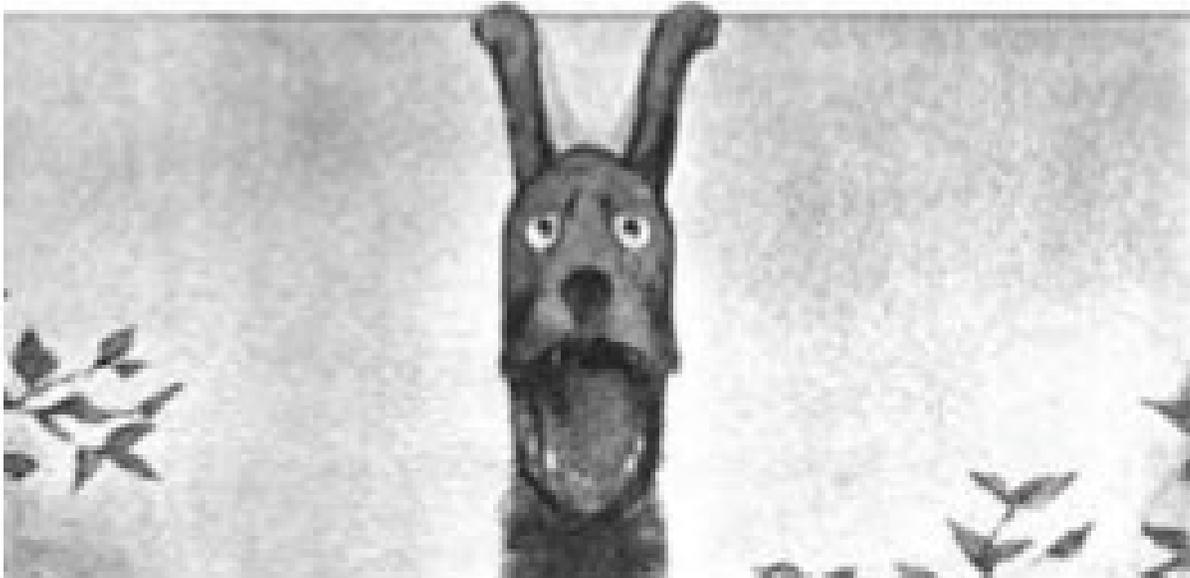

QUESTION 8:

An octopus has 3 hearts.

True or false?

QUESTION 9:

Can you find the two animals?

**QUESTION 10:**

Humans can't breathe and swallow at the same time.

True or false?

QUESTION 11:

Lightning never strikes the same place twice.

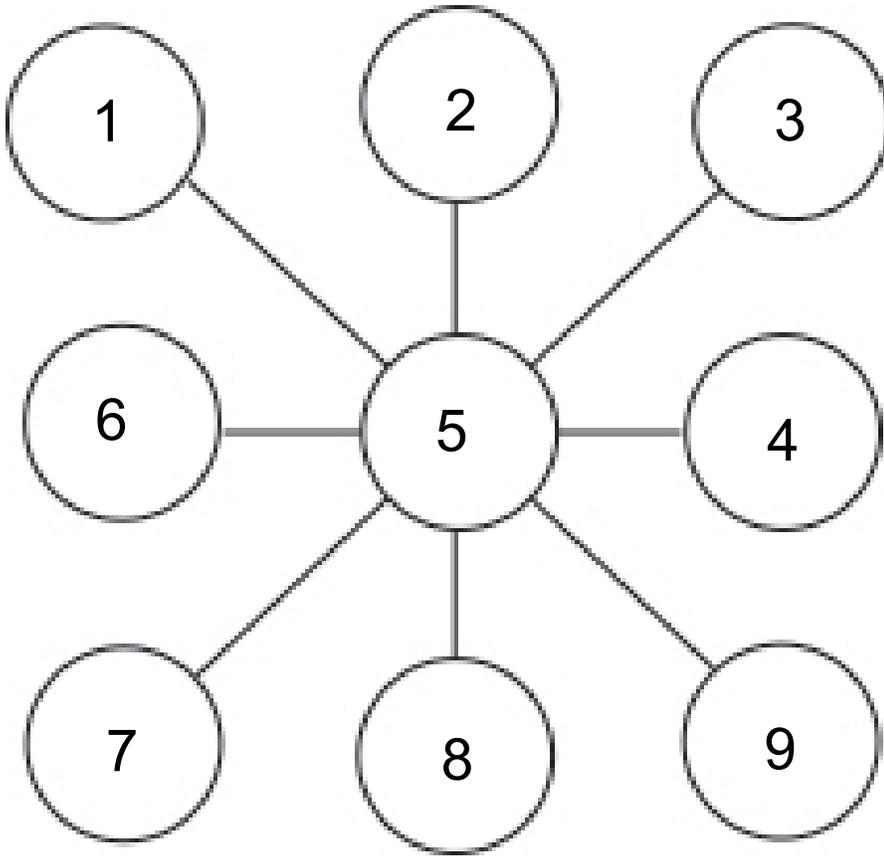

True or False?

Answers

QUESTION 1: To win the bet, the man wrote “your exact weight” on the piece of paper.

QUESTION 2: The man’s form of transport was called “Sunday.”

QUESTION 3:

QUESTION 4: If it was his own apartment he wouldn’t have to knock. Therefore, he must have been checking whether someone was in the house.

QUESTION 5: There is a son, a father and a grandfather.

QUESTION 6: It’s the first day of school, there are no mid-terms exams. Therefore, the teacher is the murderer.

QUESTION 7: The sentence should be, ‘Find **what’s** wrong with the sentence.’

QUESTION 8: This is true. They have 2 hearts that pump blood to the gills whilst the third pumps blood to the rest of the octopus’ body.

QUESTION 9: There is a dog and a cat in the one picture.

QUESTION 10: This is true. Humans have 2 different pipes (1 of the pipes leads to the stomach and the other to the lungs), when a person swallows the opening of their lungs closes. On the other hand, when someone breathes the opening of their stomach closes, therefore, making it impossible to breath and swallow at the same time.

QUESTION 11: This is false. Lightning can strike the same place twice either in the same storm or centuries later.
